EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1 has been canceled.

The claim presented on September 12, 2005 has been numbered as claim 2, with the status identifier (new).

In claim 2, line 5, the language "the notes C through C of the middle octave" has been deleted and replaced with --the note C of the middle octave through-- .

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest all of the limitations of the claim. The use of the same number for a given note (such as 1 for C, 2 for D etc.) allows a user to easily identify a note within an octave. At the same time, the use of the negative and positive signs, or no signs, allows a user to easily identify which octave a given note is within, across a three octave range. The invention provides a simple method of musical notation which can be easily understood by one not familiar with reading music, and is not disclosed or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kurt Fernstrom whose telephone number is (571) 272-4422. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chanda Harris can be reached on (571) 272-4448. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
